

BROTHERS OF LIGHT

Brothers of Light are a creative duo currently based in Israel, who combine pop art and urban influences in their unique creations. Drawing inspiration from ancient cultures, symbols, and their own childhood memories, Elna (1987) and Gab (1991), the siblings behind Brothers of Light, use various artistic mediums such as murals, silkscreen, sculptures, and paintings. Their artwork features innocent and imaginative elements, along with vibrant colors, to portray an alternative and optimistic perspective of the world.
